### **FOR IMMEDIATE RELEASE:**

**SYRACUSE, N.Y.** --- Micron Technology Inc. will host a media briefing to discuss the plans to transform central New York by forming a new industry.

**What:** Micron Technology will be hosting a media briefing to address how it will manage water building in a watershed that has had a history of water pollution, Onondaga Lake. Micron Technology is incorporating local universities and neighboring towns to cultivate a potential of 9,000 jobs over the span of 20 years. The community has taken strides in improving Onondaga Lake and hopes the company will not add to the problem.

**Who:** Micron Technology invites the media to the briefing, which will be hosted by CEO Gwen Pratt with insights from the project manager Runchu Lang, Director of Media Operations Abbie Kludt and the site selection specialist Maddy Woodson.

**When:** 9:30 a.m. EST on Aug. 1, 2023

**Where:** SRC Arena Conference Room 3, 4585 W. Seneca Turnpike, Syracuse, NY 13215

###

Micron is an industry leader in innovative memory and storage solutions, transforming how the world uses information to enrich life for everyone. With a relentless focus on its customers, technology leadership, manufacturing and operational excellence, Micron delivers a rich portfolio of high-

performance DRAM, NAND, NOR memory and storage products through Micron® and Crucial® brands. Every day, the innovations the company creates fuel the data economy, enabling advances in artificial intelligence and 5G applications to unleash numerous opportunities.
